Characteristics

Tasting Notes

**REAPER**  
Session IPA

4.0%

All the big flavours of an IPA with less alcohol.

Our Session IPA is deathly pale, with huge hits of orange, apricot and pineapple.

**PHANTOM**  
IPA

5.3%

This IPA is big on the hops and big on the senses.

A frightening amount of hop additions give this IPA a foreboding amount of flavour.

**VAMP**  
Strawberry  
Cheesecake Sour

4.1%

Soured with the addition of Lactobacillus, a refreshing beer balanced with milk sugar and fruit.

Sink your teeth into this Flemish sour, blood red in colour and packed with Strawberries.

**HADES**  
DDH Pilsner

4.5%

DDH (double dry hopped) adds a massive aroma to the world's most popular beer style.

Beneath the depths of an explosive tropical aroma lies a crisp refreshing bohemian-style Pilsner.

**GRENDEL**  
Florida Weiss

3.9%

Berliner-style sour beer, blended with US east coast citrus and peach.

Blended with wheat and citrus and as sharp as fangs. A monstrously tart sour, tamed with the sweetness of the peach.

Ghost Beer is the dark creation of Steve Crump; chief brewer and craft beer occultist of Yorkshire infamy. His concoction of supernatural ingredients and experimental flavours have led to the resurrection of these five phenomena, each with their own wicked character and more importantly, killer flavour. Through his alchemy, Steve has acquired many followers. Even the purest souls cannot deny these frightfully good beers.

Price per can £1.80 ex VAT (negotiable depending on volume.)

MOQ for Hades, Vamp & Grendell = 50 cases of 24 cans. MOQ for Reaper and Phantom = 2 cases of 24 cans.

All cans listed are vegan
